www.carlosorozco.ml

I am an engineering graduate in Electronics and Communications, eager and motivated to learn new things in the workplace. I consider myself a humble person with a high capacity for fast learning in any task in a self-taught way. Below you will see my experience and skills.

COMPETENCIES

- Autonomous Learning
- Works under pressure
- Teamwork

Languages
English Basic

Software: Excel, Word, PowerPoint, GNS3, Proteus, MATLAB, Packet Tracer, EVE-NG, Arduino IDE, Tia Portal, Factory IO.

EDUCATION

20001 – 2007

Ambato, Ecuador

José Joaquín de Olmedo School

2008 – 2014

Ambato, Ecuador

TECHNICAL BACHELOR'S DEGREE IN CONSUMER ELECTRONICS

Superior Technological Teaching Institute "Guayaquil"

20016 – 2021

Ambato, Ecuador

GRADUATE IN ELECTRONICS AND COMMUNICATIONS ENGINEERING

Technical University of Ambato

PROFESSIONAL EXPERIENCE

2015 – Present

Ambato, Ecuador

El Salto Electrical Installations

Completed tasks:

- Installation of electricity meters.
- Residential and business electrical installations.
- Installation and handling of electrical appliances and equipment.
- Installations of electrical connections.
- Placing cables and connecting them to circuit breakers, outlets, transformers and other components.
- Troubleshoot electrical problems and repair equipment in businesses and homes.
- Repair and update and change faulty or obsolete wiring.

Nov 2020 – Jul 2021

Pre-professional Practices in Icono Systems

Ambato, Ecuador

Completed tasks :

- Maintenance and Assembly of computers (software and hardware)
- Installation of operating systems (Windows, Linux)
- Change and maintenance of structured cabling
- Installation of security cameras.
- Router configuration (Tplink).
- Management of electronic equipment and tools.
- Troubleshooting software and hardware.

COURSES AND TRAINING

- ✓ Network and Cybersecurity Workshops (2021) organized by the IEEE student branches of the universities.
- ✓ Practical Cisco Networking Labs in Cisco Packet Tracer (2021)
- ✓ University of Programming 2021 Python, Java, JavaScript and Databases (2021)

TECHNICAL SKILLS

- ✓ Maintenance and Assembly of computers (software and hardware)
- ✓ Installation of any Operating System
- ✓ Knowledge of Windows and Linux
- ✓ Management and connection of databases: MySQL, PostgreSQL.
- ✓ Web Design: HTML, CSS, and JavaScript (Basic Knowledge)
- ✓ Knowledge of programming in Python.
- ✓ Basic knowledge of Microsoft Office
- ✓ Residential electrical installations.
- ✓ Management of electronic equipment and tools.

INTERESTS

- ✓ Design of electronic systems.
- ✓ Adaptation and integration of technology to various disciplines.
- ✓ Application and maintenance of electronic equipment within the industry.
