

# CARLOS OROZCO

## ELECTRONIC ENGINEER

I am an engineering graduate in Electronics and Communications, eager and motivated to learn new things in the workplace. I consider myself a humble person with a high capacity for fast learning in any task in a self-taught way. Below you will see my experience and skills.

## EXPERIENCIA PROFESIONAL

### Autonomous 2021 - Present

- Maintenance and repair of computer equipment (PCs, Laptops) around the Ambatillo parish.
- Installation of operating systems (Windows, Linux).
- Installation of security cameras (CCTV) in the Ambatillo parish.
- Installation and Configuration of Routers and Access Point (Tplink) to improve coverage.
- Installation of electric showers and grounding.
- Management of websites and social networks.
- Electrical installations in the Ambatillo parish.
- Coding and support of static websites

### PPP in Icono Sistemas (Technical Technical Support and Electronics) Nov. 2020 – Jul. 2021

- Maintenance and assembly of computers (software and hardware)
- Installation of operating systems (Windows, Linux)
- Change and maintenance of structured cabling
- Installation of security cameras.
- Router configuration (Tplink).
- Management of electronic equipment and tools.
- Solving software and hardware problems.

### Electrician Technician 2015 – Present - Instalaciones Eléctricas Del Salto

- Installation of electricity meters.
- Residential and business electrical installations.
- Installation and management of electrical devices and equipment.
- Electrical connection installations.
- Placing cables and connecting them to circuit breakers, outlets, transformers and other components.
- Troubleshoot electrical problems and repair equipment in businesses and homes.
- Repair and update and replacement of faulty or obsolete wiring.
- Installation of electricity meters in the cities of Ambato, Baños, Pelileo, Patate.

## TECHNICAL SKILLS

- Maintenance and assembly of computers (software and hardware)
- Installation of any Operating System
- Knowledge of Windows and Linux
- Management and connection of databases: MySQL, PostgreSQL.
- Web Design: HTML, CSS, and JavaScript (Basic Knowledge)
- Python programming knowledge.
- Basic knowledge of Microsoft Office
- Residential electrical installations.
- Management of electronic equipment and tools.

## COURSES AND TRAINING

- Network and Cybersecurity Workshops (2021) organized by the IEEE student branches of the universities.
- Practical Cisco Networking Labs in Cisco Packet Tracer (2021)
- University of Programming 2021 Python, Java, JavaScript and Databases (2021)
- Course of Video security cameras Surveillance IP and CCTV (analog and digital)
- Adobe Photoshop course (40 hours)

## CONTACTO

Ubicación  
Unite State

## EDUCACIÓN

Jose Joaquin de Olmedo School

Higher educational technological institute "Guayaquil"  
Technical Bachelor's Degree in Consumer Electronics

Technical University of Ambato  
Graduated from Electronics and Communications Engineering

## COMPETENCIAS

Excel, Word, PowerPoint, GNS3, Proteus, MATLAB, Packet Tracer, EVE-NG, Arduino IDE, Tia Portal, Factory IO, Canva, Adobe Photoshop.
